EDUCATION

Florida Atlantic University

Boca Raton, FL

Bachelor of Science in Computer Science

Expected August 2026

GPA: 3.2

Relevant Coursework: Data Structures & Algorithm Analysis, Design & Analysis of Algorithms, Operating Systems, Database Structures, Full-Stack Web Development, Artificial Intelligence, Deep Learning, Machine Learning & Data Mining, Communication Networks, Foundations of Cybersecurity, Theory of Computation

TECHNICAL SKILLS

Languages: Python, Java, C/C++, C#, JavaScript, Swift, SQL

Web & Frameworks: HTML5, CSS, jQuery, React

Tools & Platforms: Git, Visual Studio, Google Colab, MS Office, MS Project

Operating Systems: Linux, Windows, macOS

PROJECTS

Deep Learning Application for Narcolepsy Detection

Spring 2026

Engineering Design 2 | Python, Google Colab, JavaScript, HTML/CSS, Git

- Collaborated with a team to design and build a deep learning model that analyzes brainwave (EEG) data to detect narcolepsy and classify its severity.
- Generated hypnograms from model output to give doctors and patients an interpretable visualization of sleep stages.
- Achieved accurate detection results through iterative model tuning and validation on labeled sleep-stage datasets.

WORK EXPERIENCE

Esports Arena Attendant — FAU Student Union

Boca Raton, FL

August 2022 – April 2026

- Provided technical support and troubleshooting for high-end gaming PCs, peripherals, and networked systems used daily by students.
- Delivered customer service in a fast-paced environment, resolving hardware and software issues on the spot.
- Maintained equipment uptime and ensured smooth operation during tournaments and peak-usage hours.

Afterschool Care Worker — StarChild Academy

Oviedo, FL

August 2021 – May 2022

- Supervised children in an educational afterschool environment, ensuring safety and engagement.
- Communicated daily with coworkers and families to coordinate care and resolve concerns.
- Applied feedback from coworkers to continuously improve in a team-based setting.

LANGUAGES

English (Fluent)
